

You can purchase ammo at all Crossroads of the West gun shows. What you need to purchase ammo in California:

1. California Real ID. Driver's licenses that have a silhouette of a bear with a star in the upper righthand corner indicate that it IS a California REAL ID. If there is no bear or star and says "Federal limits apply" it is NOT a California REAL ID and you will need to bring your birth certificate or passport.
2. The information on your REAL ID must match EXACTLY what the DOJ has on file for you in your CFARS (**C**alifornia **F**irearms **A**pplication **R**eporting **S**ystem) account. Go to [www.cfars.doj.ca.gov](http://www.cfars.doj.ca.gov) to check and/or update your CFARS account. If you have purchased a gun in California in the last 10 years you have a CFARS account. If you have ever purchased a gun in California, you can get a CFARS account by logging on to their website.

If you have never purchased a gun in California it is recommended that you either:

- A- Purchase a firearm. Purchase of any firearm will automatically put you in the system and create a CFARS account for you. Or
- B- Get a C.O.E. A Certificate of Eligibility costs \$22 and will give you a one year background clearance to buy ammo. Go to [www.oag.ca.gov](http://www.oag.ca.gov) then (type COE into their search option) to find requirements and apply for a C.O.E.

If you have any questions about ammo purchase, the ammo dealers at the Crossroads gun show are very knowledgeable and very helpful. Some will even check your CFARS account for you for free.
